Work Experience

Hallmark Lights & Equipment

Kerala, India

Sales & Market Analysis Intern

Mar 2024 – Apr 2024

- Conducted competitor and product analysis across electrical and lighting categories, identifying stronger demand for LED solutions and contributing to a 12% increase in customer inquiries.
- Analyzed weekly sales data in Excel using pivot tables and charts to compare LED product performance and support pricing and product planning decisions.
- Built Excel reports with VLOOKUP and conditional formatting to track sales trends and competitor pricing, supporting marketing efforts associated with a 15% increase in retailer orders.

Finance & Accounting Intern

May 2023 – Jun 2023

- Analyzed monthly P&L statements using SUMIF and pivot tables to identify cost inefficiencies in imported lighting products, contributing to an 8% reduction in supplier costs.
- Developed quarterly budgeting and forecasting templates in Excel to support expense tracking, financial planning, and management review.
- Reconciled 50+ ledger entries and validated financial records using Excel cross-checks and data validation, resolving discrepancies before month-end reporting and audit preparation.

Projects

Enterprise Sales & Commercial Analytics Platform | [GitHub](#)

SQL | Python | SQLite | Scikit-learn

- Built an 18-table Star Schema warehouse with 13 indexes and 11 SQL views, combining Sales, Finance, Marketing, Inventory, and Customer Success data for cross-functional reporting.
- Built a SQL-first ETL and data-quality process that caught 12 duplicate customer keys, 37 missing emails, and 21 orphaned opportunity records before loading the warehouse.
- Analyzed \$894.4M in simulated revenue using SQL, RFM/K-Means segmentation, retention scoring, and Holt-Winters forecasting, identifying 0.38× pipeline coverage and achieving 2.09% MAPE on a six-month holdout forecast.

M&A Target Screening & Valuation Intelligence | [GitHub](#)

Python | SQL | Power BI

- Evaluated 20 technology companies across 11 financial metrics using Python and SQL, ranking companies by valuation, growth, profitability, leverage, cash generation, and returns.
- Built a six-category scoring model and Power BI report that ranked Adobe (72.1), Qualys (66.7), Intuit (65.2), and Microsoft (64.9) as the four highest-priority targets.

Marketing Analytics & Retail Customer Intelligence | [GitHub](#)

Python | Pandas | XGBoost | Plotly

- Analyzed 2.58M cleaned transactions across 2,500 households and 581 stores, combining customer, product, campaign, coupon, and promotion data to study customer and store performance.
- Applied RFM, cohort analysis, K-Means, Apriori, and XGBoost to measure 53.3% Week-4 retention, identify 972 cross-sell rules, and achieve 0.9751 R^2 on Store × Week sales modeling.
